DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John J. Oskorp on 3/09/09.

The application has been amended as follows:

In claim 1 line 1, delete the phrase "A private instant communications processing" has been replaced with --- A system comprising a private instant communications processing ---

In claim 10 line 2, delete the phrase "any one of claims 1 to 7 wherein:" has been replaced with --- of claim 1 wherein: ---

Allowable Subject Matter

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art fails to teach "producing a combined signal having with the generic identifier instead of the user identifier of said first private user device", as cited in the claim.

Regarding independent claims 13 and 21, the prior art fails to teach "the combined generic signal being communicated to the C1CP with a generic identifier instead of any of the user identifiers of the private user devices so that the user identifiers of the private user devices are not revealed," as cited in the claim.

Regarding independent claim 24, the prior art fails to teach "the session communications from the wireless user device are assigned and communicated with a generic identifier by the private instant communications processing element instead of the user identifier of the wireless user device so that the user identifier is not revealed in the session communications" as cited in the claim.

Regarding independent claim 25, the prior art fails to teach "the PICP being further adapted to receive and combine the signals of the private user devices into a combined signal which is communicated with a generic identifier and without any of the user identifiers of the private user devices", as cited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
